

# ACCESSORY KIT INSTALLATION MANUAL

**FURNACE LABEL KIT S1-37327813001**  
**FOR USE WITH MODELS: ALL 80% & 90% GAS FURNACES**

## GENERAL INFORMATION

This kit contains operating, safety, and warning labels for the inside of furnace door panels for various residential furnaces.

When replacing furnace doors please affix labels from this kit to the back of the door panels.

Each label contains a document number along its edge. Match document numbers from the labels on the old door to documents in this kit to determine which labels need placed on the replacement door.

**IMPORTANT** - Due to the variety of wiring diagrams they must be ordered separate from this kit.
