

Performance has never been this stylish

Acclimate: part of a total Luxaire comfort system

Extend your quiet, efficient comfort with a Luxaire furnace or air handling unit—which are designed for the same level of money-saving efficiency, peace-saving quiet operation, and long-lasting durability. Our variable-speed air handlers and furnaces feature electronically commutated motors—which dramatically lowers your electrical consumption and, in certain applications, will use less energy than a 100-watt light bulb.

Also count on Luxaire to provide the fans, filters and advanced controls to complete your system!

Luxaire gives you performance and saving across your entire heating and cooling needs.

Your Purchase Helps Support the Make-A-Wish® Foundation

Luxaire and the Make-A-Wish® Foundation have joined together to deliver special wishes to children with life-threatening illnesses.

In addition to our corporate gift, additional funds will be allocated through our dealers to local Make-A-Wish chapters.

Look for special Luxaire seasonal promotions for an opportunity for you to be involved.

High performance, year in and year out

Luxaire backs every Acclimate system with one of the best limited warranties you'll find: 5 years on parts and 10 years on compressors. And for extra peace of mind, our optional Luxaire Performance Promise™ Extended Protection Plan offers up to 10 years of total parts and labor coverage. And, if you purchase our 5T Acclimate model with a matching Acclimate Gas Furnace or Air Handler, you'll receive our Total Package Warranty program: A 10 year limited parts warranty and a Lifetime limited compressor warranty.

Luxaire makes comfort affordable

Luxaire makes buying an Acclimate system easy and affordable, with financing plans to meet your needs and budget.

Choose the Acclimate system that performs best for your home

Nominal Capacity		Model Number			Height (inches)*		
Tons	Mbh	2S Series 12 SEER R-22	3S Series 13 SEER R-410A	5T Series 15 SEER R-410A	2S	3S	5T
2	24	AL2A024	AL3B024	AL5B024	29 1/2	29 1/2	33 1/2
2.5	30	AL2A030	AL3B030	—	29 1/2	33 1/2	—
3	36	AL2A036	AL3B036	AL5B036	29 1/2	33 1/2	39 1/2
3.5	42	AL2A042	AL3B042	—	33 1/2	39 1/2	—
4	48	AL2A048	AL3B048	AL5B048	39 1/2	39 1/2	39 1/2
5	60	AL2A060	AL3B060	AL5B060	39 1/2	39 1/2	39 1/2

* All units are 37" long x 31" wide. See your Luxaire dealer for other models and details.

The Acclimate 3S & 5T models meet ENERGY STAR® requirements for energy efficiency.

Acclimate™
2S, 3S & 5T Series
HIGH-EFFICIENCY CENTRAL AIR CONDITIONERS
12, 13 & 15+ SEER EFFICIENCY

The new standard in high-performance air conditioning

Luxaire® Acclimate™ 2S, 3S, & 5T Series

Performance inside and out

New fan guard design yields quieter and more efficient operation

Powder painted steel for long-term durability in the harshest environments

Composite base pan distributes and dampens sound

State-of-the-art compressor combines ultra-reliability and efficiency with quiet operation

Available with environmentally friendly R-410A refrigerant

SilentDrive™

Available in 5T models, the new Luxaire SilentDrive™ System utilizes a swept-wing fan design, isolated compressor compartment, composite base pan and two-stage cooling to provide 4x quieter operation and 60% more energy efficient performance.

A stamped wire guard and polymer mesh provides the ultimate in coil protection

Isolated compressor compartment reduces noise

Designed for easy access to all components for easier serviceability

Cooling has never been this stylish

The new Luxaire® Acclimate™ series gives you the comfort and cost-saving, energy-efficient performance that is part of the Luxaire Performance Promise—all in an attractive, innovative new design that brings style to home cooling. With a sleek, contemporary look, it's the one system you'll be proud to show—not hide behind bushes or fencing.

Designed for efficiency, reliability and comfort.

The Acclimate series is engineered with reliable scroll compressor technology with less moving parts for greater efficiency, reliability and comfort.

The 5T model is equipped with TS compressor technology that operates at two levels of performance. A second maximum cooling stage to handle the hottest days. And a first stage,

specifically designed to cool your home more efficiently, with less operating noise and with better comfort, during non-peak cooling times.

Raising comfort levels by reducing sound

The Acclimate is the quietest series ever offered by Luxaire.

- Quieter compressors are isolated behind an advanced composite material further reducing transmitted compressor noise.
- Advanced fan design for smoother air flow and reduced noise.
- A composite base pan distributes and dampens sound.
- The SilentDrive™ System in the 5T model, features a swept-wing fan design, isolated compressor compartment, composite base pan, and two-stage cooling that provides quieter operation than conventional systems.

The Acclimate is so quiet, you may never notice it running.

*Acclimate can reach as low as 69 db. For every 3 db quieter, sound is reduced 50%!

Savings you can see

Replacing a worn out air conditioning unit with a high-efficiency Acclimate system can lower your cooling costs and increase your comfort. Available with energy efficiency ratings of 12 through 15+ SEER, Acclimate series air conditioners double efficiency over many older units. And with its higher reliability and reduced service costs, the Acclimate can pay for itself quickly.

Cooling Efficiencies (SEER)*	Approximate Annual Cooling Operating Costs				
	Zone 1	Zone 2	Zone 3	Zone 4	Zone 5
6.0	\$424	\$544	\$738	\$767	\$1204
8.0	318	403	554	575	903
10.0	255	326	443	460	722
12.0	212	272	369	383	602
13.0	197	252	342	356	559
15.0	170	218	296	308	484

(Based on 2001 DOE national average price for electricity (0.0837/kwh). Assuming the use of 36,000 BTU nominal capacity. Information derived using Elite Energy Audit Program. Cooling based on Bin data. Operating cost based on 2,100 sq. ft. and occupancy of 4 people. Actual savings may vary.)
*SEER=Seasonal Energy Efficiency Ratio. The higher the SEER rating number, the more energy efficient the unit. The government's established minimum rating for air conditioning is 10.

To Use The Map and Chart:
 Using the map, locate the Zone you live in. Determine the SEER of your current system. Cross-reference your Zone and current SEER in the table to determine your approximate annual cooling costs. The difference between your current cost and that of a higher-SEER unit is your estimated annual savings.

Example:
 $\$1,204 - \$484 = \$720$
 (Your estimated annual savings)
 That's a 60% Savings!
