

Peak Performance™ Series

14+ SEER Split System Heat Pumps

Model E*BE Shown

Comfort, cost-efficiency and flexibility. At up to 16 SEER and 9.0 HSPF, a Peak Performance™ Series Heat Pump provides comfort all year long, and dramatic energy savings when compared to most systems over 10 years old.

Setting The Performance Standard.™

LUXAIRE®

HEATING ■ AIR CONDITIONING

■ Energy Savings.

With a Seasonal Energy Efficiency Ratio (SEER)¹ of 14 and a Heating Season Performance Factor (HSPF) as high as 9.0, a Peak Performance heat pump can make a dramatic difference in your energy bill. In fact, it could cut your energy use up to 60% when compared to most central air conditioning systems over 10 years old. When matched with a variable speed air handler, efficiencies as high as 16 SEER can be achieved, further helping to reduce heat pump operating expenses.

■ Dependable Comfort Without the High Cost.

The compact and energy-efficient Peak Performance 14 SEER heat pump will keep your home comfortable on the hottest and coolest days of the year, effectively lowering humidity levels while maintaining the desired temperature. Talk to your Luxaire® Dealer to find out how coupling your new Peak Performance 14 SEER heat pump with a compatible Luxaire air handler and variable-speed or 2-Stage furnace will give you a home comfort system that maximizes both cooling and heating efficiencies—not to mention your family's comfort.

■ Enjoy the Quiet.

No wonder our Peak Performance system has such low sound ratings. All moving parts were selected for quiet operation and specially mounted to reduce noise. Even the fan blades are designed to move air quietly. What's more, the upward airflow carries these soft, normal operating noises away from your home.

■ Quality.

Quality materials and manufacturing ensure that the entire system is built to last. The coils are constructed from copper tubing and coated-aluminum fins. Plus, they're protected from impact by a tough, decorative grille and mesh guard. The permanently lubricated fan motor needs no servicing. The compressor is the most efficient, reliable, and long lasting in its class and is internally protected from abnormal operating conditions. And the heavy-duty cabinet is made of pre-painted steel with an appliance-quality finish that is attractive and resists corrosion and fading.

1. The Federal Government has established SEER (Seasonal Energy Efficiency Ratio) and HSPF (Heating Season Performance Factor) ratings to allow you to compare energy efficiencies of heating and air conditioning equipment. The higher the SEER or HSPF number, the more efficient the product.

■ A System That's Built to Last.

This unit/design has proven reliability and performance, it has been in the market for years. And when we build a product this good, we're happy to stand behind it. So we back each Peak Performance 14 SEER heat pump with a 5-year parts and a 10-year limited warranty on the compressor.

Extended Warranty

Ask your dealer about our Extended Protection Plan. You can have complete peace of mind—with total parts-and-labor coverage on your system for up to 10 years.

Complete Buyer Protection

Ask your dealer about Easy Financing from Luxaire. Applying takes just minutes, and, upon approval, you'll enjoy low monthly payments, special financing offers, and no annual fee. You can use Luxaire's revolving credit to purchase new Luxaire equipment, accessories, and service. Keep your family in comfort year-round...apply and buy with your new Luxaire credit card today!

PEAK PERFORMANCE™ E*BE 14 SEER SPLIT SYSTEM HEAT PUMP

Model Number	Nominal Cooling ²		Nominal Heating ²		Dimensions (Inches)			Approx. Weight
	MBH	SEER	MBH at 47°	HSPF	Width	Height	Length	
E*BE-F024S	24.2	14.0	24.2	9.0	32	26	43	212
