

Performance Plus™ 13 SEER

Split System Air Conditioning

Model H*BD Shown

*Comfort and cost-efficiency.
At 13 SEER, this durable air conditioner
could dramatically reduce energy use
when compared to most systems
over 10 years old.*

■ A System Designed to Save You Money.

With a Seasonal Energy Efficiency Ratio (SEER) of 13, a Performance Plus™ air conditioner can make a dramatic difference in your energy bill. In fact, it could cut your energy use up to 55% when compared to most central air conditioning systems over 10 years old.

■ Durability by Design.

Quality materials and manufacturing ensure that the entire system is built to last. The coils are constructed from copper tubing and coated aluminum fins. Plus, they're protected from impact by a tough, decorative grille and mesh guard. The permanently lubricated fan motor needs no servicing. The compressor is internally protected from high operating pressures and temperatures, and is one of the most efficient, reliable, and long-lasting in its class. And, the heavy-duty cabinet is made of pre-painted steel with an appliance-quality finish that is attractive and resists corrosion and fading.

■ Stay Comfortable, Save Money.

The compact and energy-efficient Performance Plus 13 SEER air conditioner will keep your home comfortable on the hottest days of the year, effectively lowering humidity levels while maintaining the desired temperature. It's an air conditioning system you can count on to cool your home...at a surprisingly low operating cost. Talk to your Luxaire® Dealer to find out what system is right for you. Match the Performance Plus 13 SEER¹ air conditioner with a compatible Luxaire air handler, single, two-stage, or variable speed gas furnace to maximize efficiency and comfort.

■ Enjoy the Quiet.

Quiet is an important part of comfort, and the Performance Plus air conditioning system has low sound ratings. Operating noise is minimized through upward discharge airflow, a rigid top panel which isolates fan-motor sounds, rubber compressor mounts, and rippled coil fins.

Setting The Performance Standard.™

LUXAIRE®

HEATING ■ AIR CONDITIONING

1. Actual MBH and SEER Ratings will vary depending on which Indoor Unit the Outdoor Unit is matched with. See your Luxaire Dealer for details.

Permanently lubricated fan motor saves energy; reduces maintenance.

Air Handler and coil can be used instead of a furnace.

Coated aluminum fins with copper tube coils look great and provide durable, efficient operation.

Electronic air cleaner.

Tough vinyl-coated coil guard provides real protection to the coils.

Filter/Drier provides extra protection to the refrigerant system from moisture, dirt, and other contaminants.

Compressor is protected from high pressure and temperature for durability.

■ A System That's Built to Last.

This unit/design has proven reliability and performance; it has been in the market for years. And when we build a product this good, we're happy to stand behind it. So we back each Performance Plus system with a 5-year parts and a 10-year limited warranty on the compressor.

Extended Warranty

Ask your dealer about our *Extended Protection Plan*. You can have complete peace of mind—with total parts-and-labor coverage on your system for up to 10 years.

Complete Buyer Protection

Ask your dealer about *Easy Financing from Luxaire*. Applying takes just minutes, and, upon approval, you'll enjoy low monthly payments, special financing offers, and no annual fee. You can use Luxaire's revolving credit to purchase new Luxaire equipment, accessories, and service. Keep your family in comfort year-round...apply and buy with your new Luxaire credit card today!
