## OPTIMUM™ CHOICE ROOFTOP UNIT

15 - 27.5 tons

Mid-to-large commercial spaces

### Enjoy Comfort Year-Round with Luxaire® Optimum™ Choice

Luxaire® Optimum™ Choice Units provide a cost-effective, best-in-class cooling and heating capabilities and significant reductions in operating costs for mid- to large-sized commercial facilities, including multicompany office buildings and schools.

#### Key Features & Benefits:

##### Energy Efficiency

Standard-efficiency models (up 14.8 IEER) in the 15- to 27.5-ton range, delivering up to 23% greater part-load efficiency than comparable standard-efficiency units and nearly 15% higher IEER ratings than competitive high-efficiency units.

##### Flexible Airflow Options

Includes constant volume, single-zone VAV, and full VAV options and IntelliSpeed™ discrete fan control (DFC) with 2-stage and 4-stage options for optimized efficiency and comfort.

##### Heating Options

Supports a variety of gas heating options including full modulating gas heat with a wide turndown ratio.

##### Continuous Reset Single Zone (CRSZ) Control

An industry-exclusive option that ensures optimal comfort and energy efficiency by continuously adjusting to real-time conditions.

##### Outdoor Air Management

A broad range of advanced outdoor air options and configurations, including low-leak damper economizers, constant volume powered exhaust, and modulating powered exhaust for enhanced air quality and efficiency.

**Our commitment to quality is built into our entire line of packaged rooftop units.**

#### Easy Installation

Direct fit for existing curbs, no costly modifications, minimal downtime.

#### Energy Efficiency

Standard and high-efficiency options cut energy costs and meet code.

#### Smart Technology

Built-in controls with cloud analytics ensure reliability and energy savings.

#### Configurable Controls

Tool-free setup with remote access and seamless system integration.

#### ASHRAE Compliant

Meets or exceeds ASHRAE Standard 90.1.

#### Industry-Leading Warranty

10-year coverage for parts, labor, and key components.

#### American Quality

Made in the USA at the Johnson Rooftop Center of Excellence.

#### Built for Peace of Mind

American quality backed by regulatory compliance, performance and safety testing – because your comfort deserves lasting protection.
